#### FCM CONFERENCE REPORT

Clr. Elliott provided the Council a report on her attendance to the Federation of Canadian Municipalities Conference and Trade Show held in Regina. Clr. Elliott reported on the key note addresses and study tours that she participated on including a visit Cowessness First Nation Energy project that includes solar and wind energy that will eventually service 100000 homes. Clr. Elliott was selected as one of two hundred delegates to attend a reception at Regina's Mosiac Stadium.

# **VALLEY VIEW VILLA UPDATE**

Clr. Butler provided an update to Council on some recent developments with Valley View Villa. The replacement of Valley View is scheduled to take place within the next three years. The development project is proceeding according to plan and Tate Engineering thanked the Municipality for its cooperation on the land acquisition. The current audit report has seen significant progress in the overall reduction of the accumulated deficit and it is the board's hope that it will be completely erased within three years,

#### **BACKPACK PROGRAM UPDATE**

The CAO reviewed the results of the survey of the schools in Pictou County regarding the availability of a backpack program. Warden Parker stated that the decision for Council is whether to fund this program through council grants or individual district municipal services grants.

Clr. MacKeil asked if there was a budget established for this program and if there was a recommendation on how to provide funding to the schools. The CAO responded that there is no budget and that if Council decided to fund the program it would need to come from the grant contingency fund. At present there is no recommendation on the amount of funding, as Council must first decided on how the program will be funded, either council or municipal services grants.

Clr. Wadden stated that there is a need for the program and asked if the schools provided any data on the usage. The CAO responded that most schools just indicated whether or not they had the program and that there was no specific data provided on usage.

Clr. Boyles stated that the backpack program helps not only feed students but their families. Clr. Boyles stated that he felt that perhaps municipal services grants would be the best way to approach this as the groups could maybe get more money from the districts rather than a council grant.

Clr. Turner stated that the back pack program and the breakfast programs are something that is really needed and there are many factors in our communities that contribute to the need.

### MOTION

It was moved by Deputy Warden Murray, seconded by Clr. MacKeil that the administration be directed to develop a funding recommendation for the Backpack Program through the Council grants.

Motion Carried.

# **RURAL INTERNET PROJECT**

The CAO provided the Council and update on the progress on the Rural Internet Project. The CAO reviewed the financial status of the project for both Phase 1 and the Wireless Project as of the end of May 2022.

The CAO indicated that work on the colocation towers is scheduled during the month of July and the Eureka tower is to be erected this week. Telecon are continuing to do the splice work in the Lyon's Brook Area and this should be completed within a couple of weeks.

The CAO indicated that the East Link Connection went down today due to a motor vehicle accident. The CAO stated that this is why we are building redundancy into the project through multiple connections to Halifax and Moncton.

The CAO indicated that the three services providers are being on boarded so they can be ready to provide service to the first 280 customers in the Lyon's Brook.

The CAO in response to a question from Clr Turner stated that the only monies that have been advanced on the next phases of the project are make ready costs and we pre-ordered some fibre to avoid some supply chain issues. The current phases of the project are trending on budget.

The CAO indicated that wireless project has received an extension to March 2023; however, we are looking at September 2022 to have the majority of towers operational.

The CAO provided an overview on how customers will be contacted and how they will arrange for service once the wireless service becomes available.

Clr. Butler asked if Starlink would have an impact on the project and the CAO indicated that it may have a 1-3 percent impact on the overall project.

Clr. Thompson asked if we have all the design work completed under phase 1 of the project. The CAO replied that we have a complete digitized design for the network, and it has been updated to reflect the fact we are not building to Truro.
