

Municipality of Pictou County

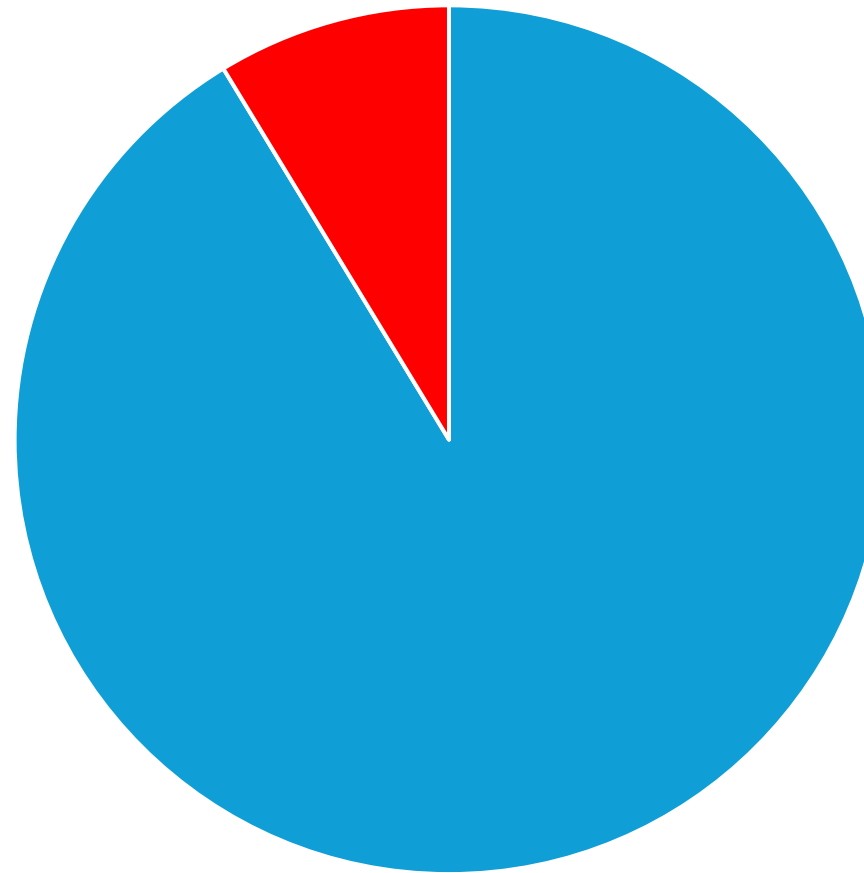

Climate Change Survey Report
March 2024

Question 1. Do you feel that Pictou County is currently undergoing climate change and will be more affected in the future?

Yes – 63

No - 6

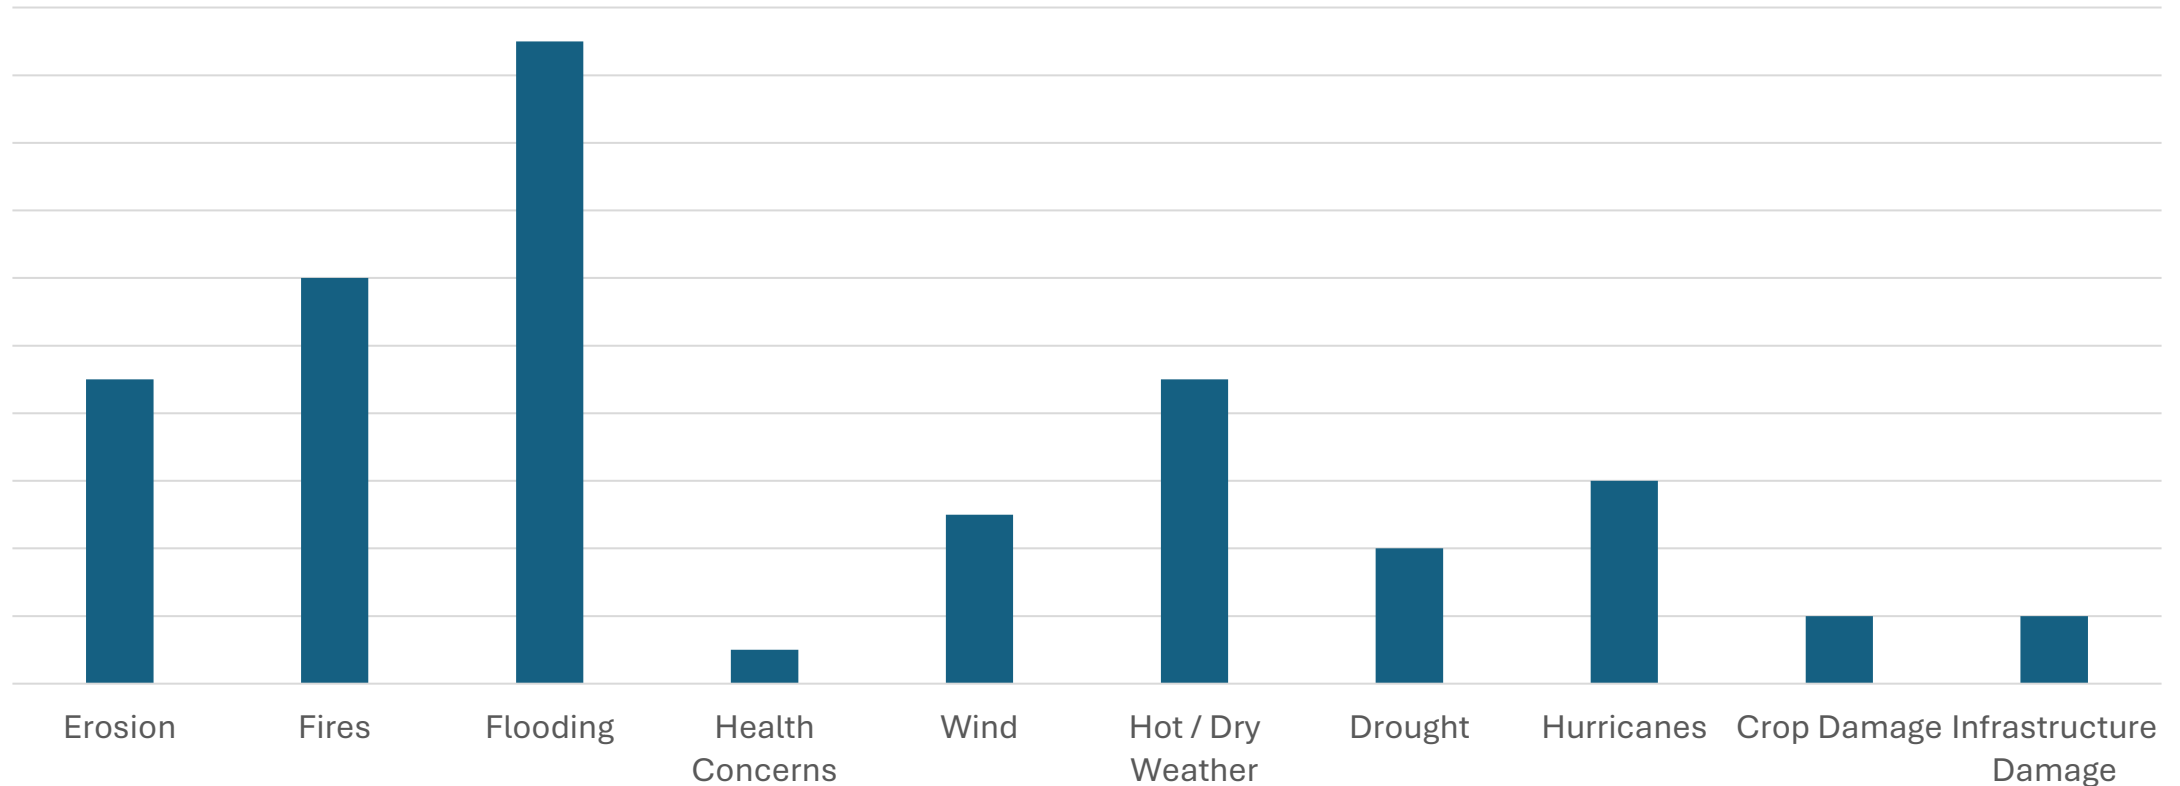

■ Yes ■ No ■ ■

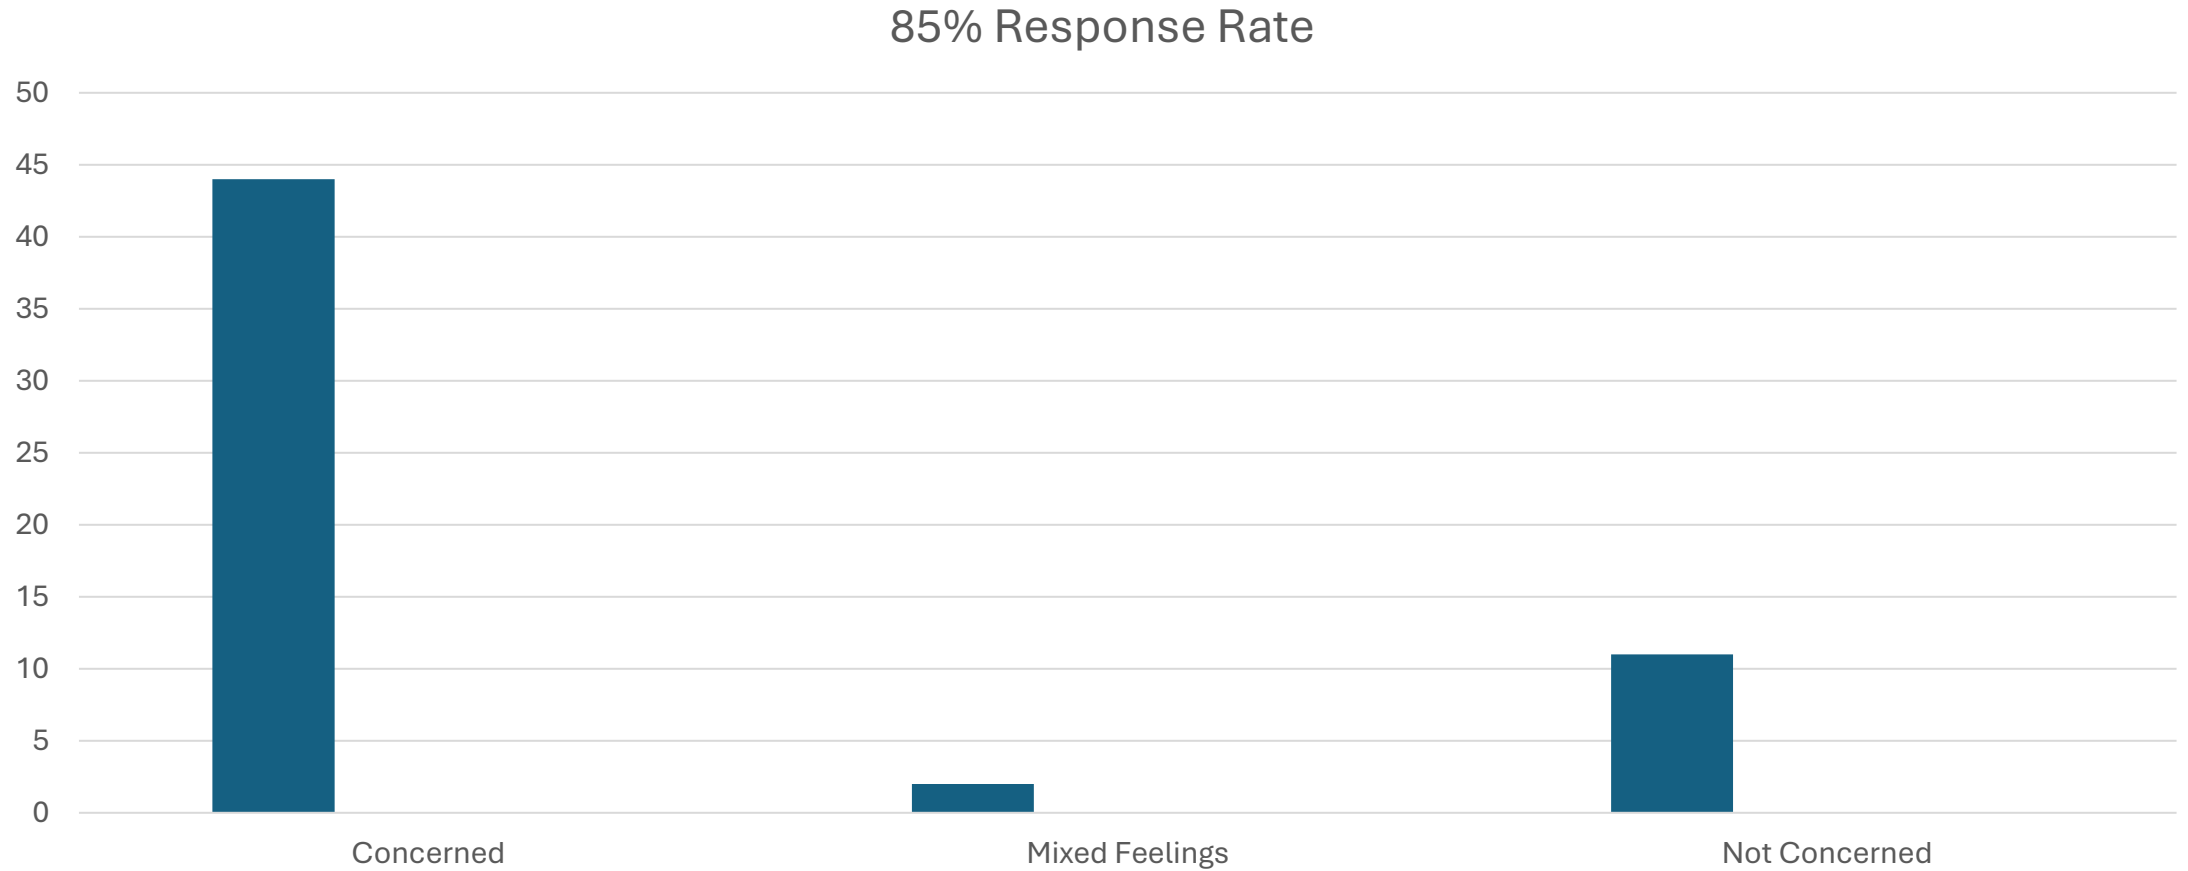

Question 2. If your answer to Question 1 is “Yes”, please list what you feel are the top three issues that climate change will pose to the County.

Most Common Responses

88% Response Rate

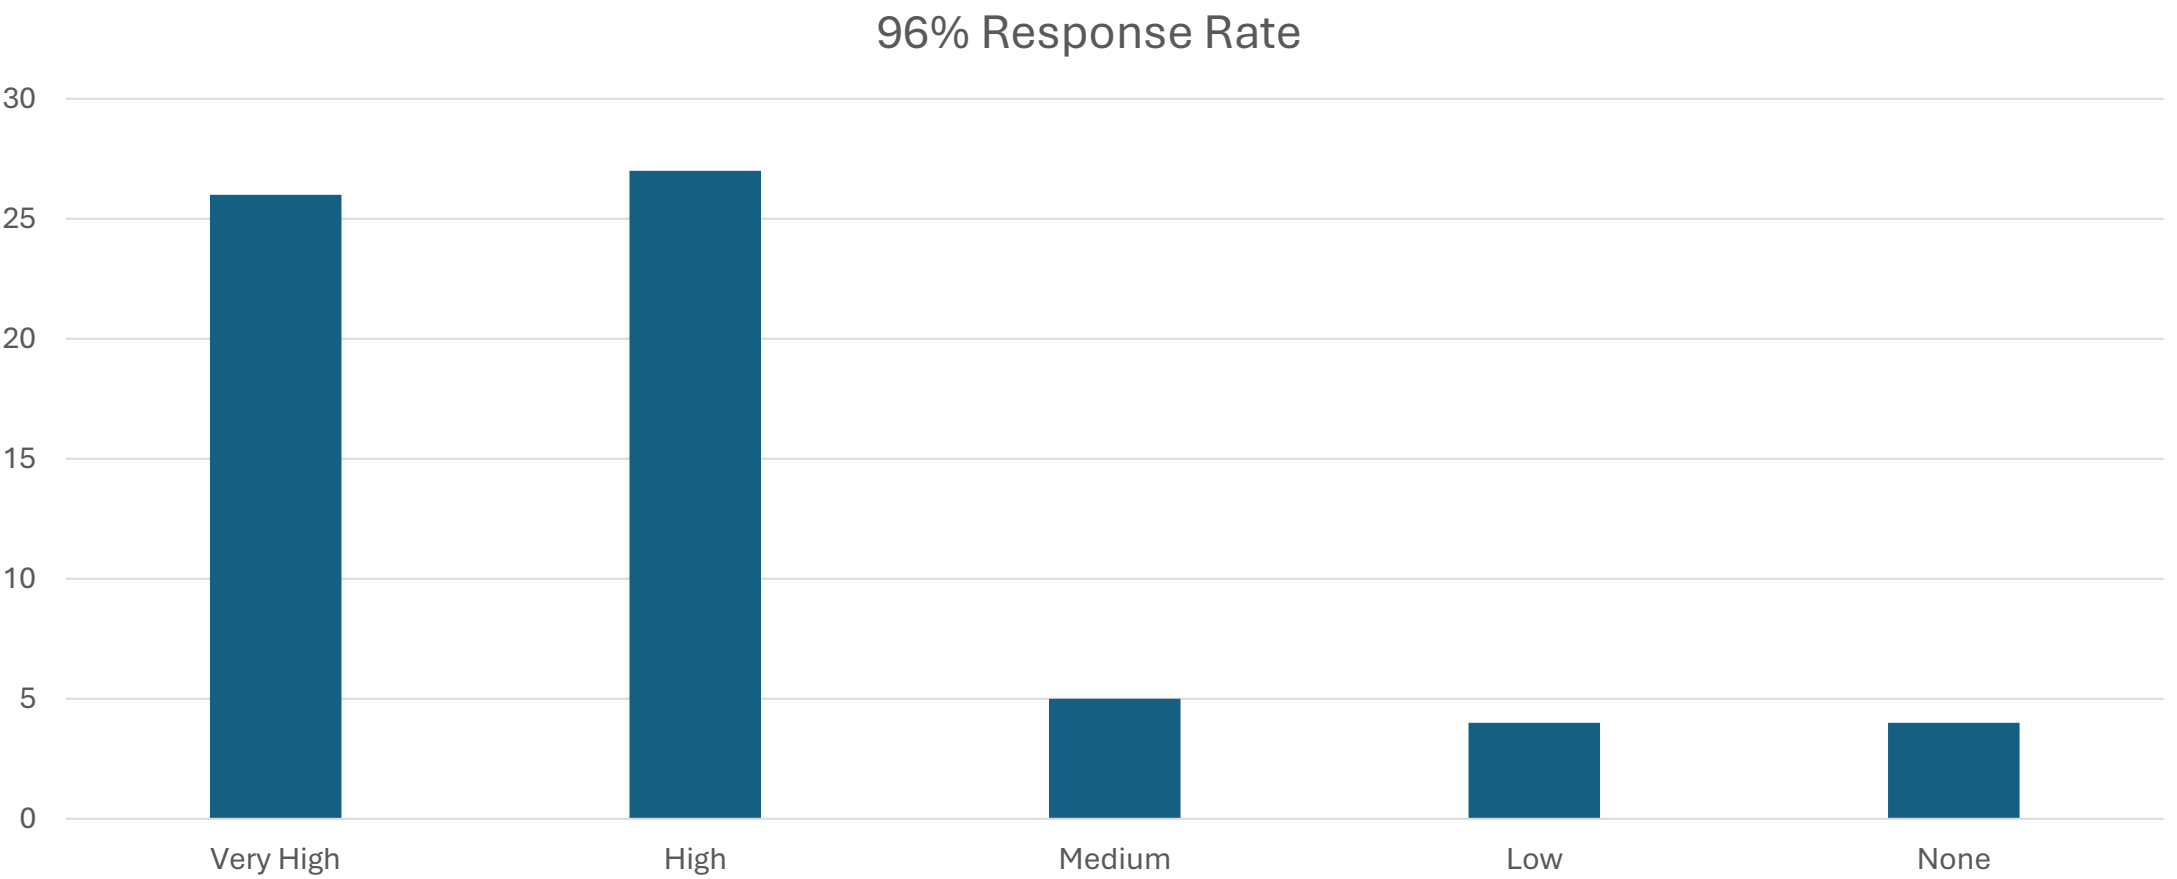

What have your friends and neighbours said on this topic?

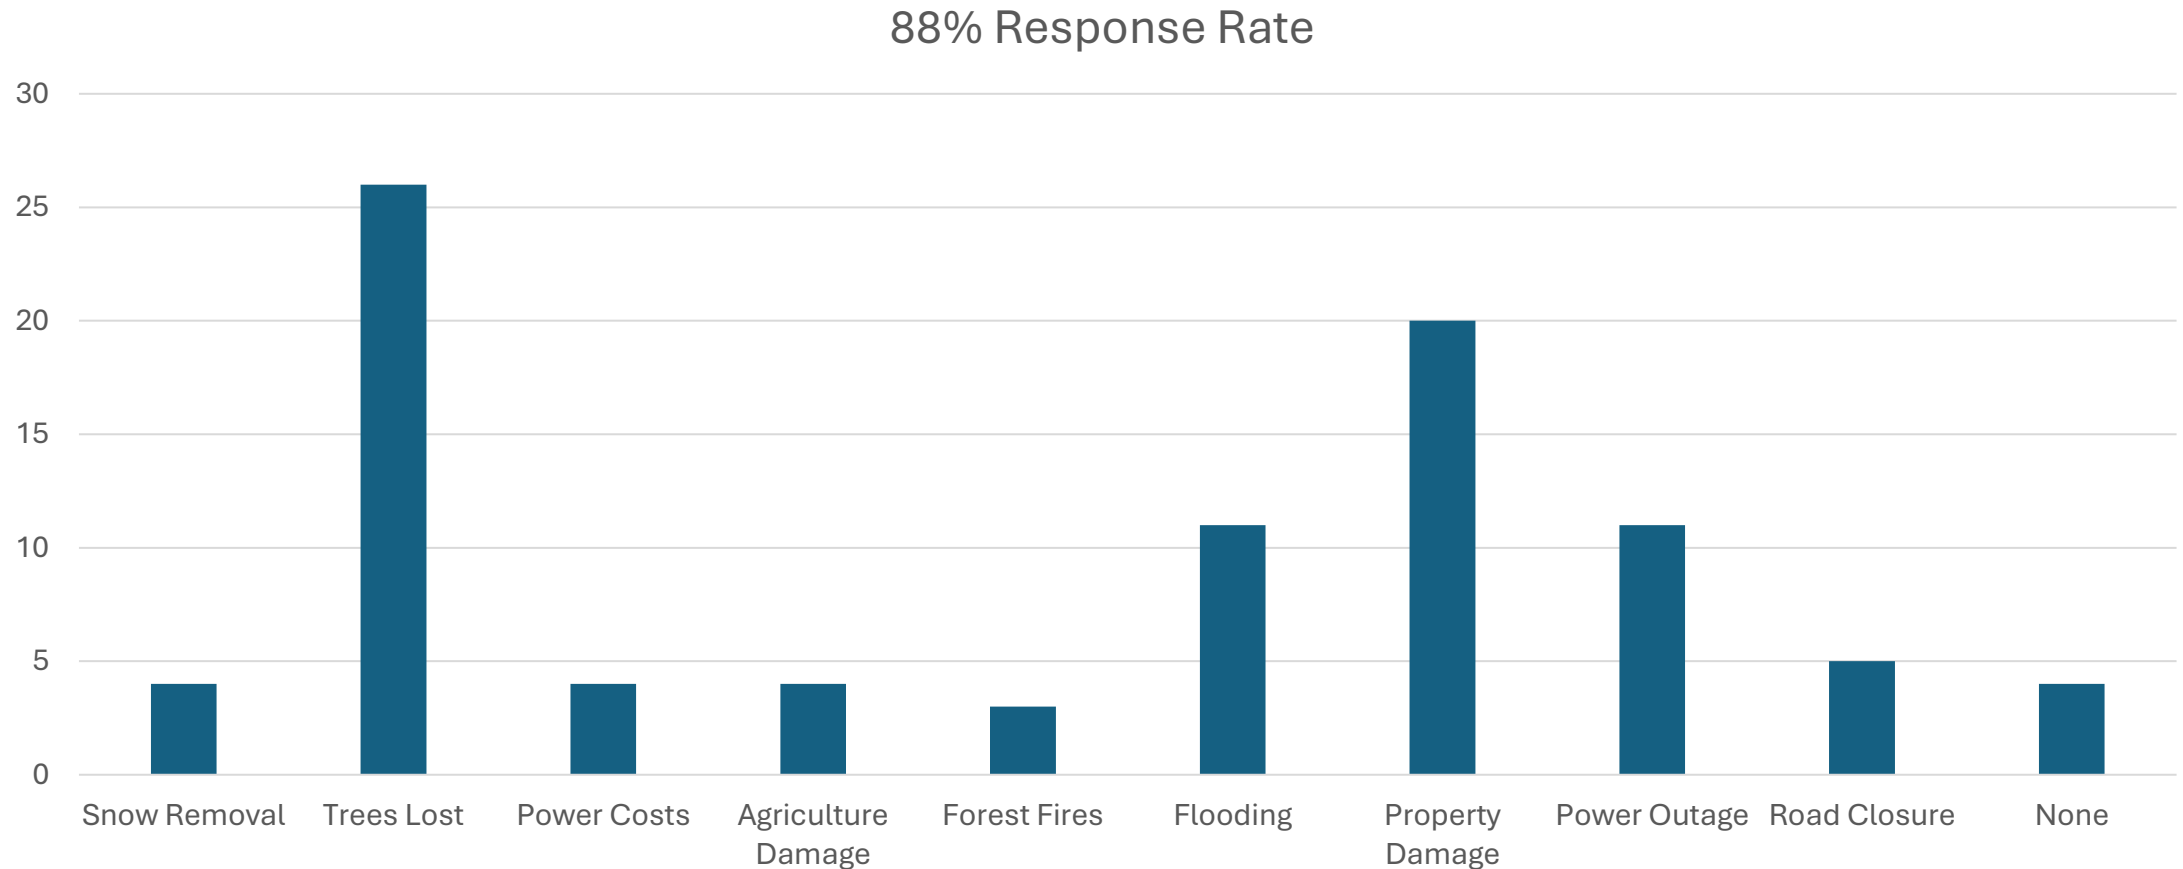

Question 3. If your answer to Question 1 is “No”, what three other issues do you feel are important to the County’s future and need to be addressed?

- There were 12 responses to this question.
- Issues raised included housing, poverty, health care, jobs, amalgamation and manufacturing
- Issues related to climate change were mentioned in several responses including erosion and dryer weather

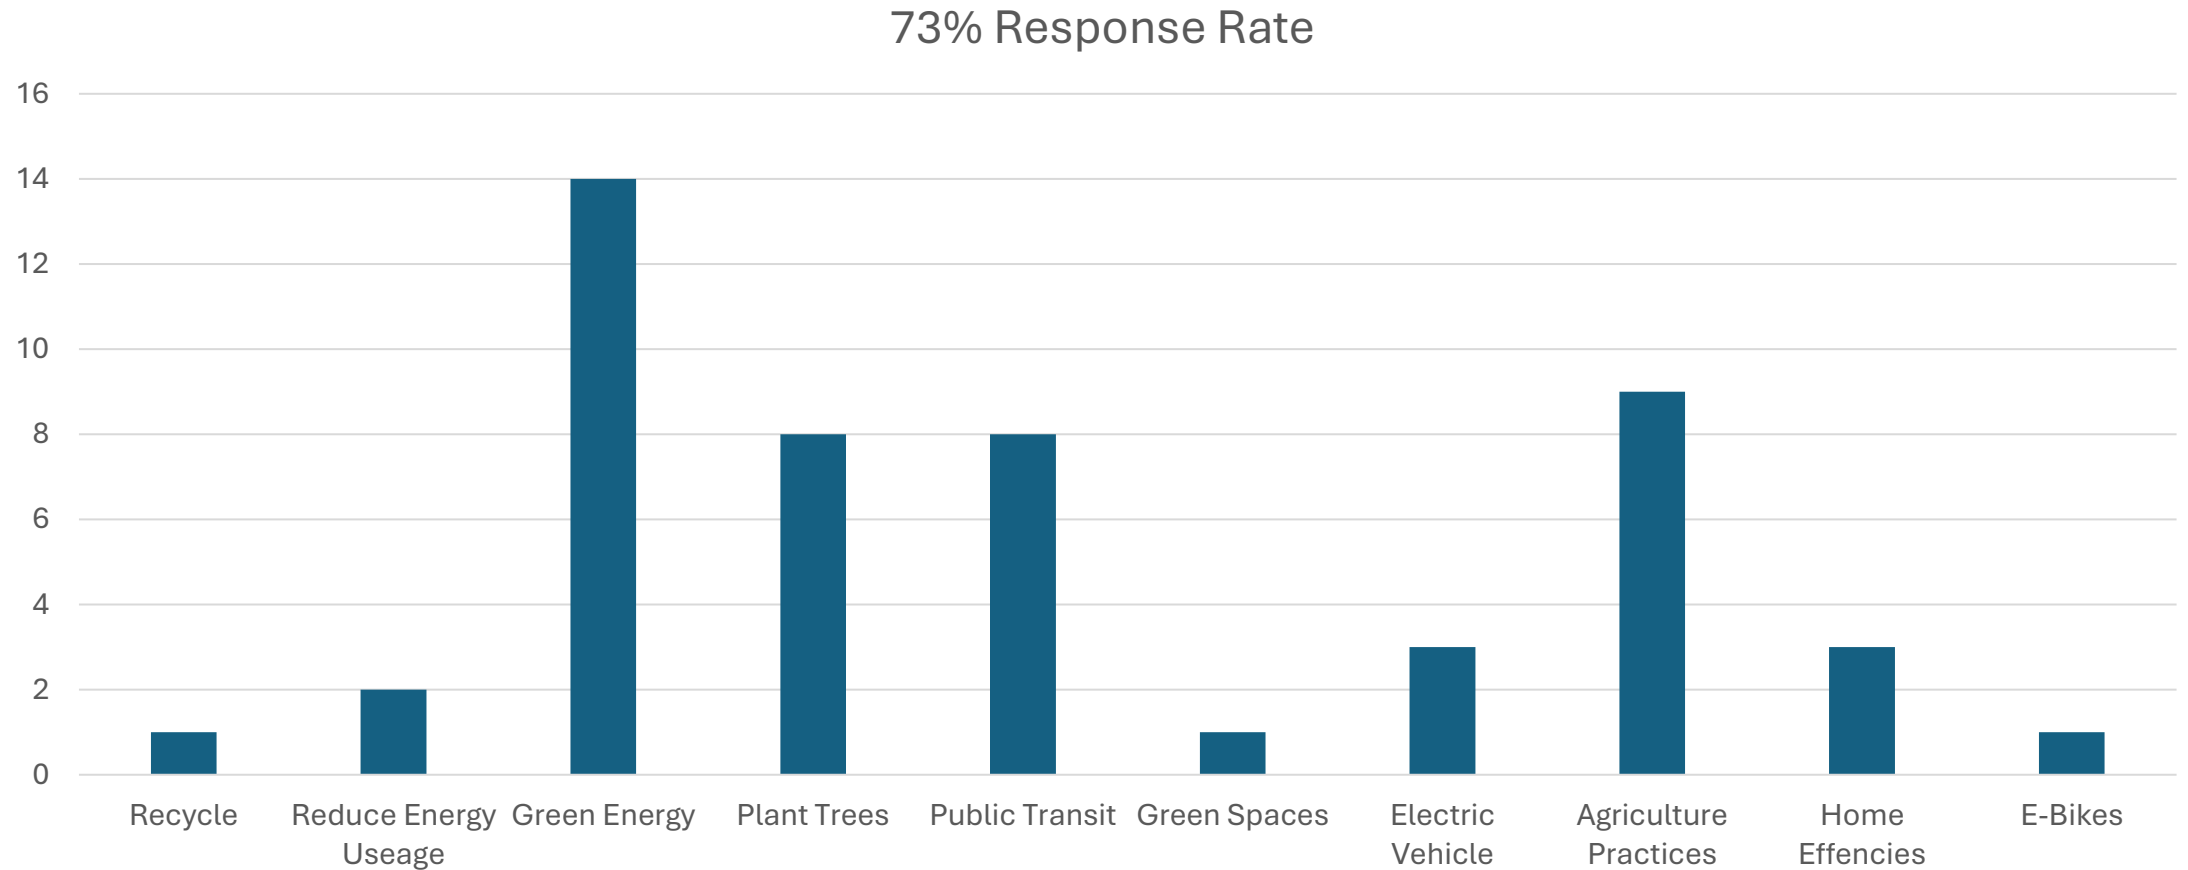

Question 4. What is your level of concern about the impacts of climate change (chose one)?

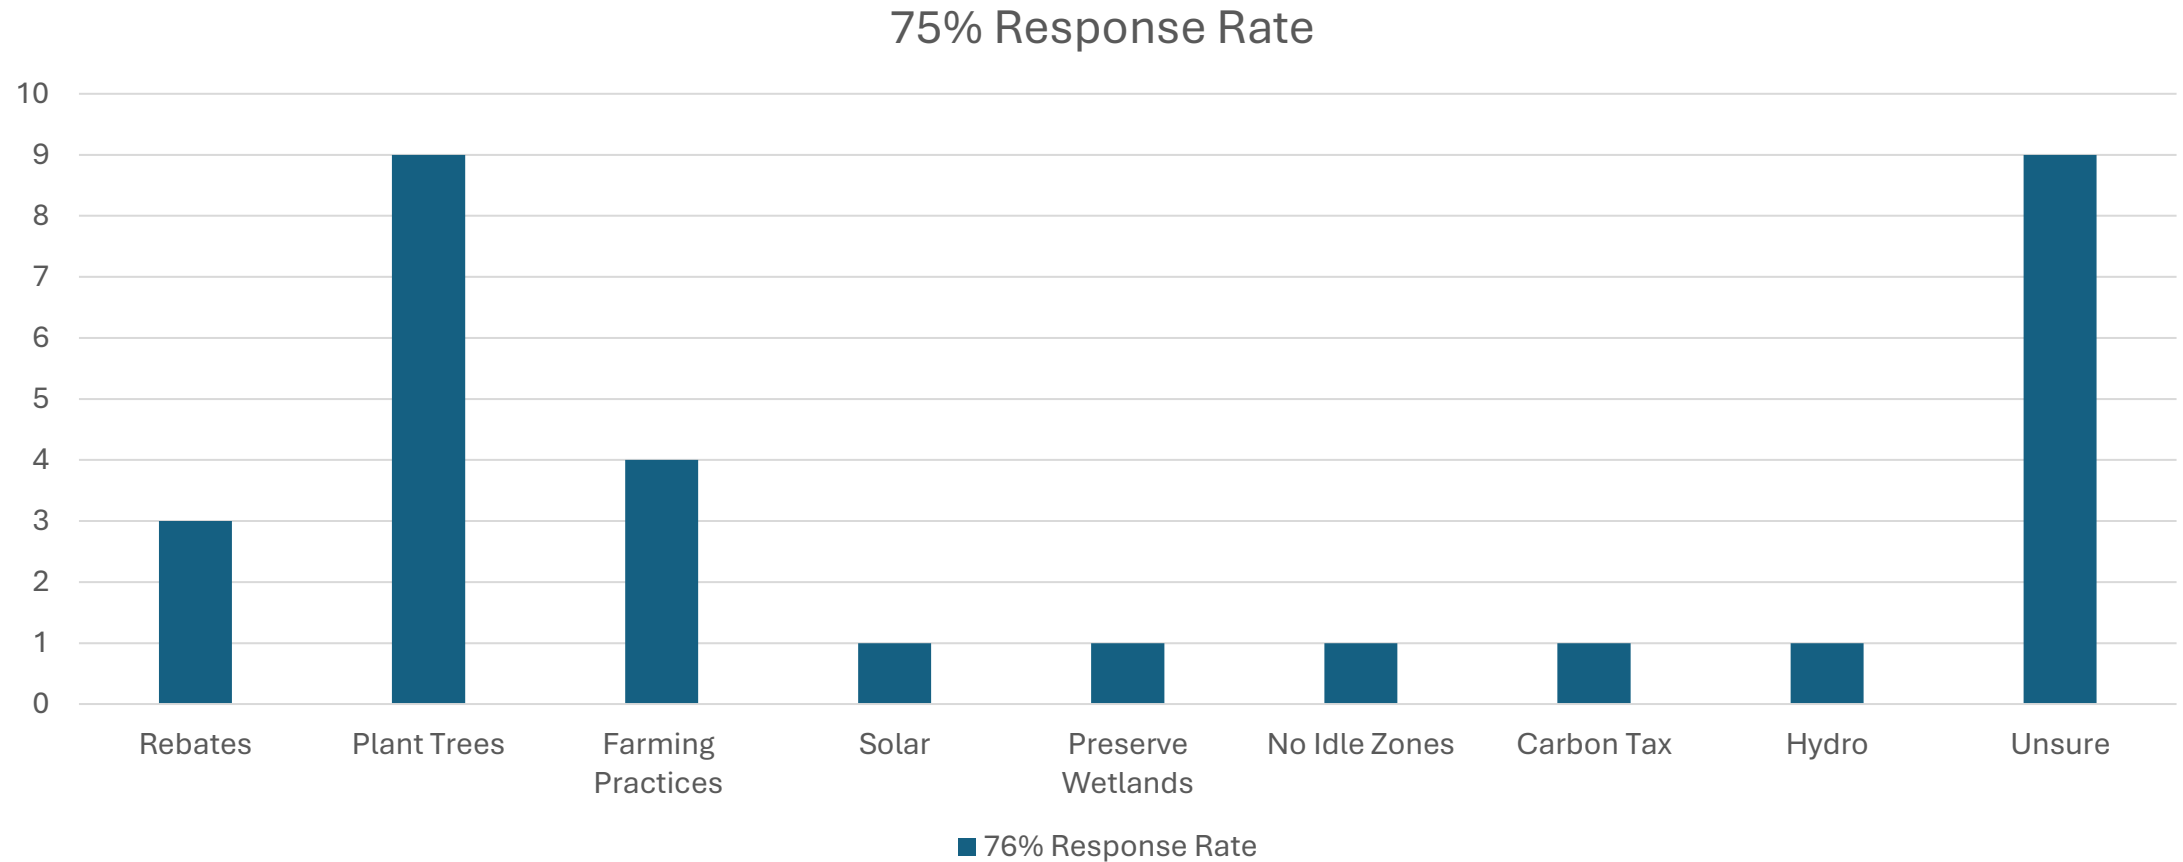

Question 5. If you have been impacted by climate change (e.g., severe precipitation, high wind and damaging storm surge events), please briefly describe those impacts.

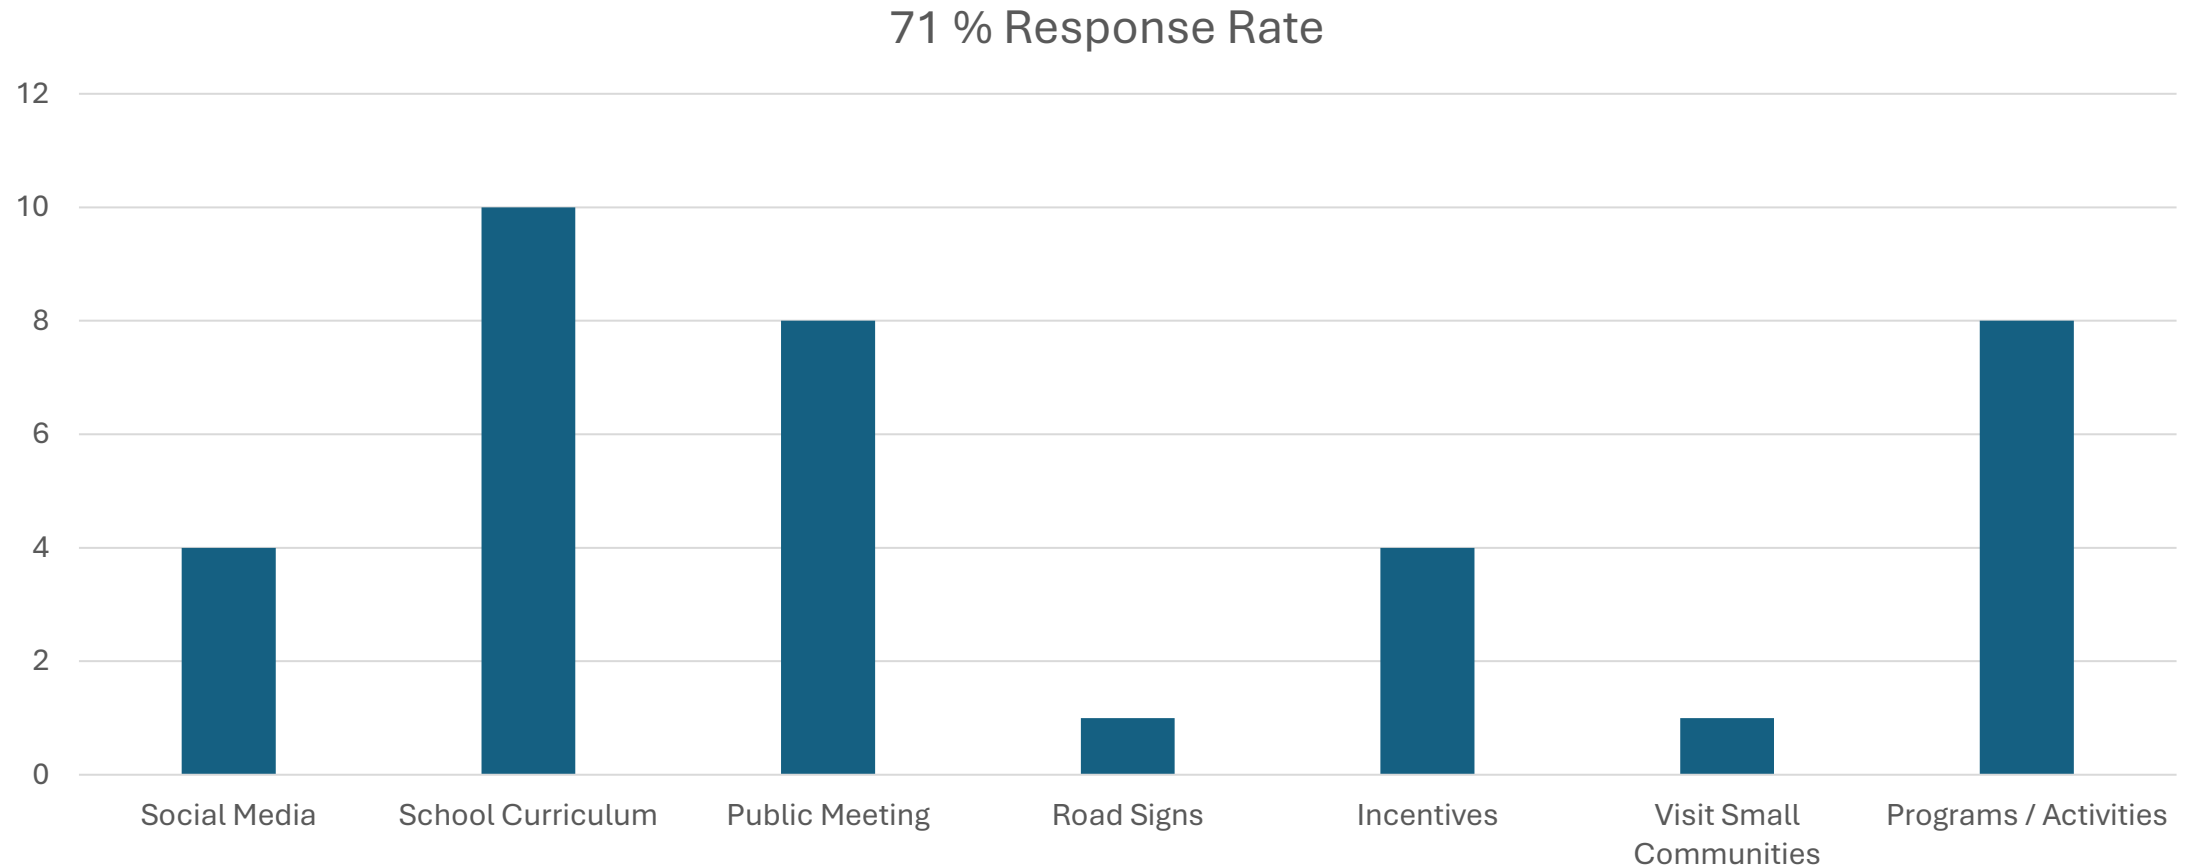

Greenhouse Gas Reduction – actions to lower the gases in the atmosphere that raise the surface temperature of the earth.

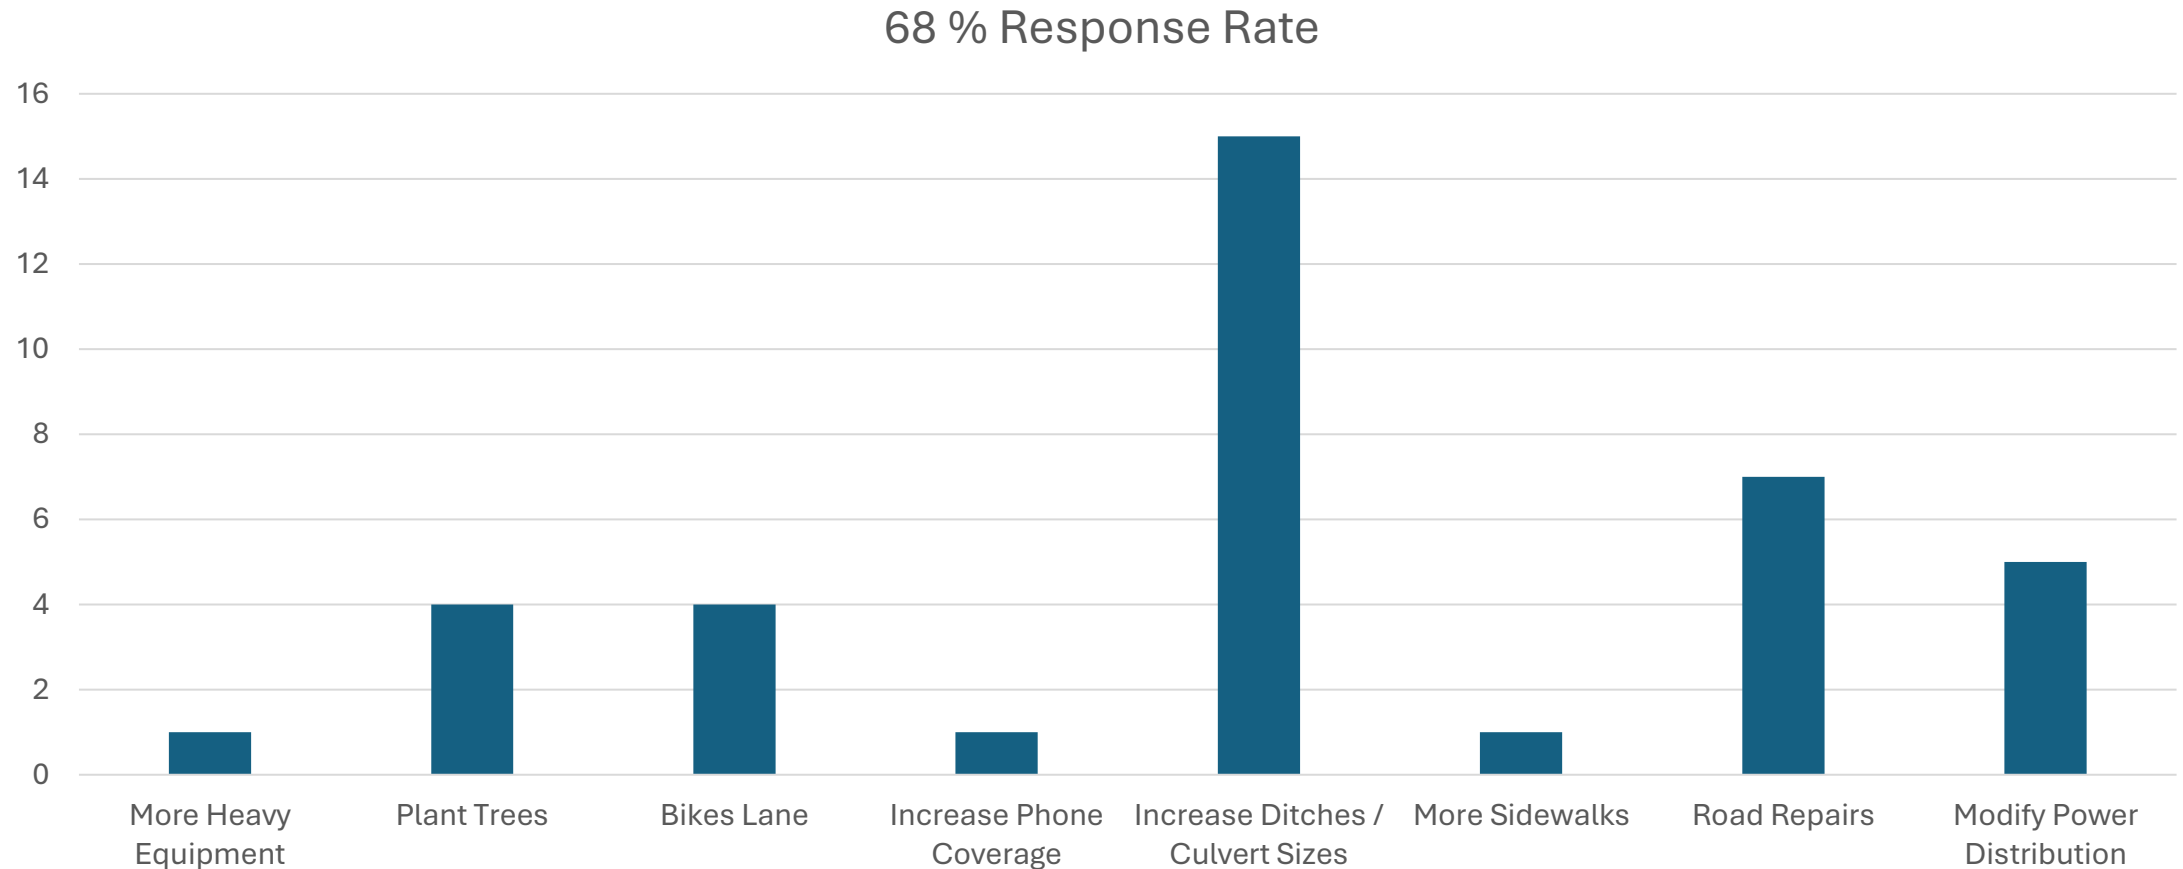

Carbon Capture – actions to catch carbon dioxide (CO2) emissions produced from fossil fuels in electricity, industrial processes, etc.

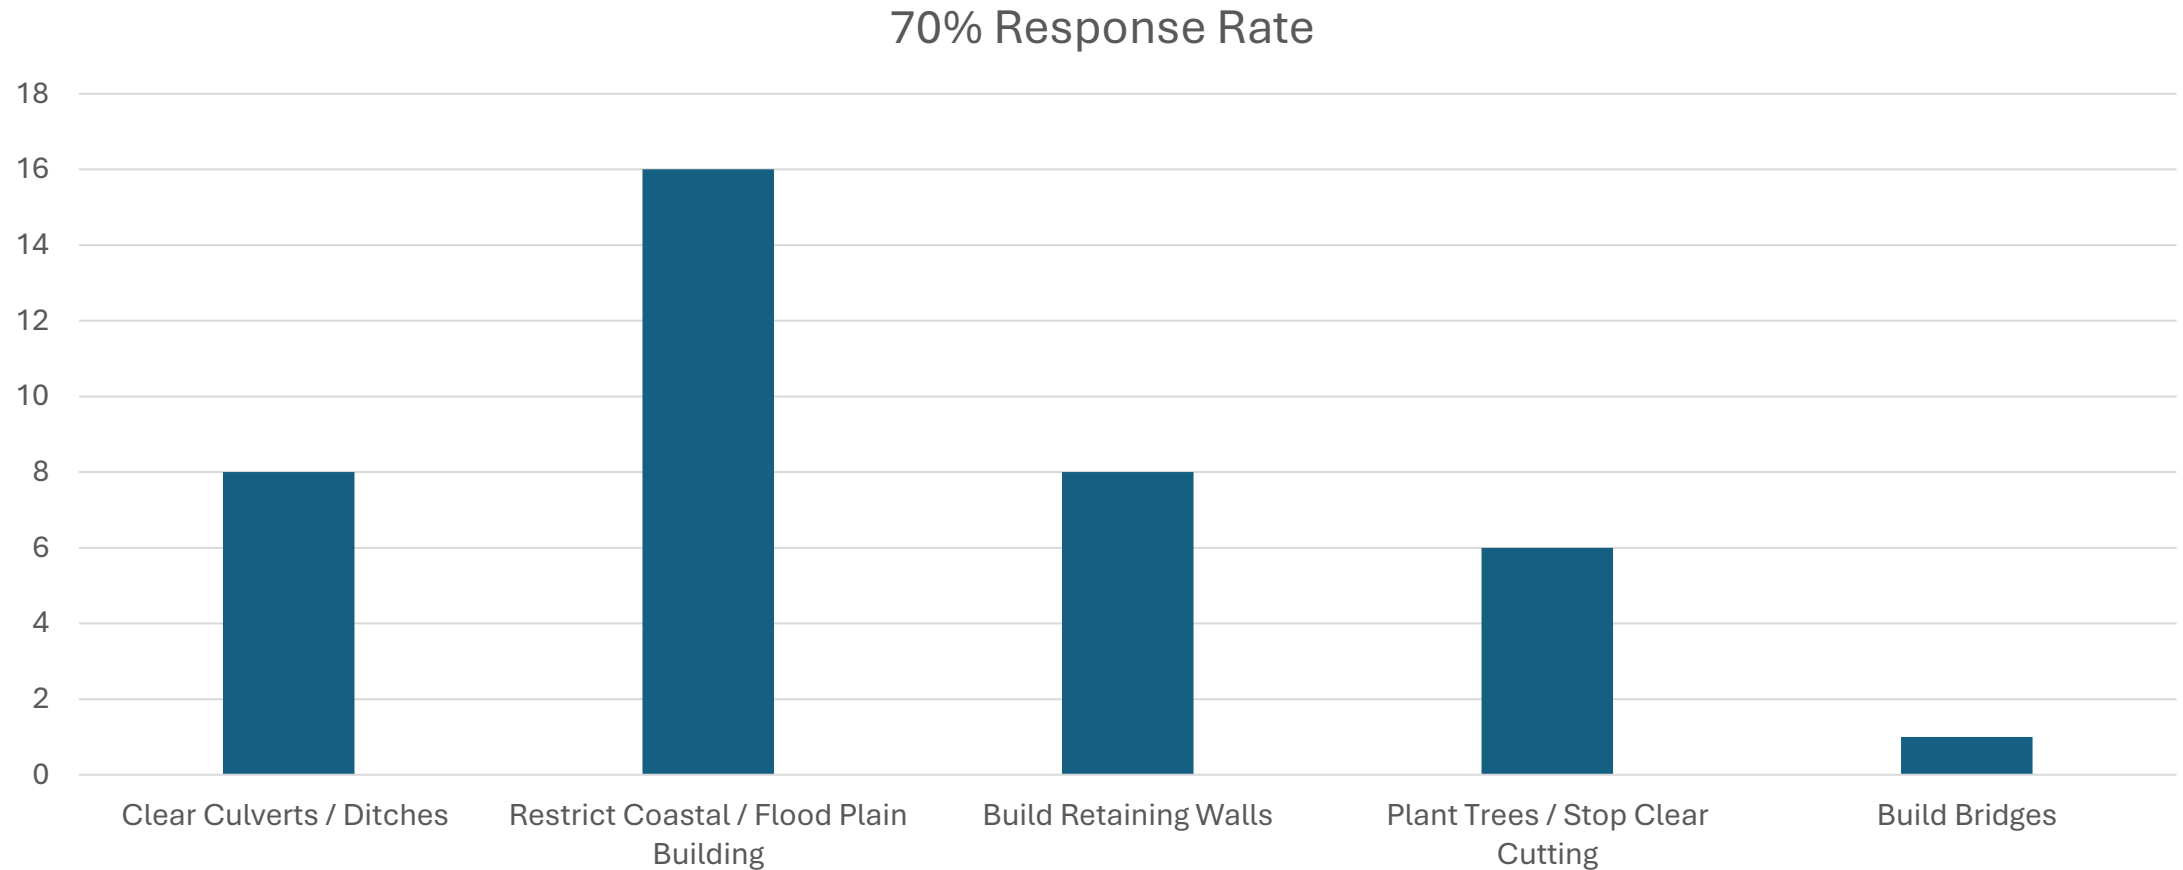

Public Education and Engagement – actions to encourage citizens to learn more about climate change and take climate action.

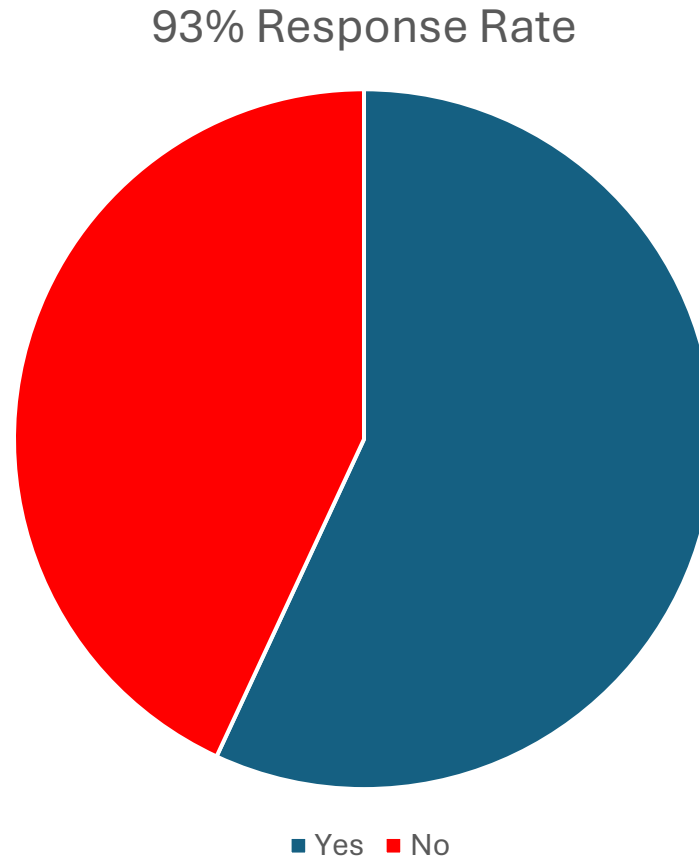

Infrastructure Modification – actions to modify County infrastructure (e.g., roads, culverts, water and wastewater systems, etc.) that is prone to climate change impacts.

Erosion and Flooding Protection – actions to protect MOPC facilities and infrastructure and citizens' properties from flooding events and decrease erosion impacts.

Question 7. Are you interested in participating in a Townhall Meeting that will increase awareness of climate change impacts and provide the opportunity for additional inputs to the action planning process?

8. If your response to Question 7 was “Yes”, please provide your address so the Action Planning Team can select Townhall meeting locations in accordance with level of interest
